

How to Make Dragon Eggs

ACTIVE TIME

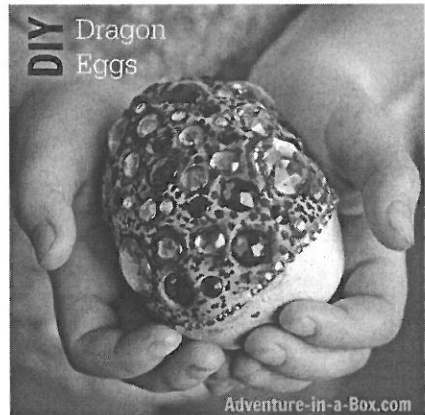

30 minutes

DRYING TIME

1 days

TOTAL TIME

1 days 30 minutes

Materials

- aluminum foil
- air-dry clay
- liquid watercolours or food colouring
- acrylic beads, jewels and stones; seashells, beach glass and rocks; anything else that might embellish a dragon's egg.

Instructions

(Optional) If you are using a coloured clay, skip to step 2. If you are using a white clay, you may want to stain it by mixing with liquid watercolours or food colouring.

Roll aluminum foil into a ball/egg.

Cover the aluminum ball with clay and sculpt it into an egg form.

Decorate with beads, jewels, and seashells by pushing them into clay.

Let the eggs dry for about 24 hours.

(Optional) At this point, you can paint them again.
